Background & Experience

Greg works closely with business owners, families, and individuals in their insurance planning. He regularly advises clients on how to utilize insurance to protect against risk exposure and improve their overall financial goals.

As a former business owner, Greg understands that owning a business you take on risk, so developing unique ways to use insurance to minimize the risk, protects your most valuable assets for your family.

Greg attended Towson University, where he played cornerback as a collegiate football player and obtained his Bachelor of Science. He also authored two books on creating a healthy mindset and teaching children about nutrition. His children's nutrition book was then created into a successful course for kids.

In his spare time Greg is an avid reader/writer and loves spending most of his time with his wife Cortney and their furry little friends at their home in South Florida. They spend most of their free time outdoors and staying active.

Certifications & Education

- Towson University - Towson, MD
Bachelor of Science
